

**International Think Tank Summit on the Future of Security in Europe,
Zuerich 16.-17. jan. 2020**

Dear colleagues,

Today and yesterday we have participated in the Summit Conference on the Future of Security in Europe professionally organized by the Avenir Suisse.

We have heard highly professional presentations on the issues European Defense & Security, Position of Neutral Countries, Cyber Warfare and Security. The speakers have provided the audience with a vast amount of information and insights into their respective subjects. After that we could have very stimulating discussions. It is now upon us to digest all that and use something in the daily business and/or political practice.

We learned from the media about the simultaneous events in global politics in Europe, Washington and Moscow.

The conference took place in a meeting room at the Zuerich airport, near a restaurant and the host Avenir Suisse took a lot care to provide excellent hospitality, good service and friendly and cooperative atmosphere. We all are thankful for that.
